## Immunosuppressed messaging

1.

🚫 If you are immunosuppressed it's important to protect yourself against the COVID-19 virus to prevent against getting seriously ill or needing to go to hospital.

💉 Get the extra protection you need with the COVID -19 vaccine.

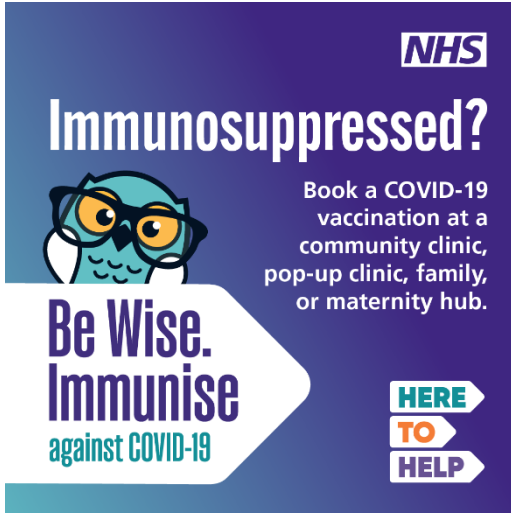

You may be able to get the vaccine if:

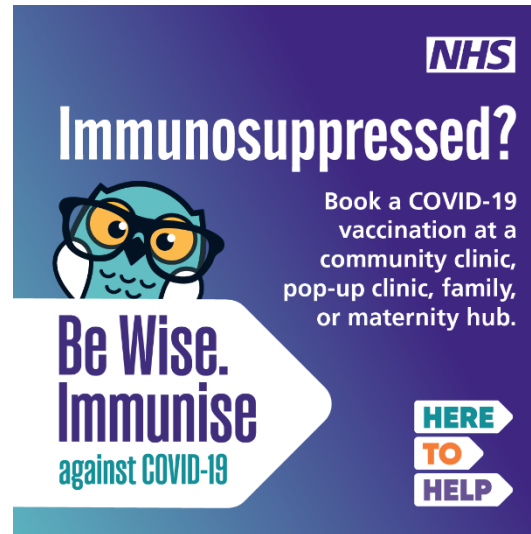

- You have a condition that affects your immune system
- You're having treatment like chemotherapy, or take medicine that makes it harder for your body to fight infections

To book a COVID-19 vaccination at a community clinic, pop-up clinic, family or maternity hub, or to find out more about COVID-19 medicines visit 🖱️ <https://bewiseimmunise.co.uk/>
